***‘The Power of Knowing . . . Examining Our Lives Through an EDI Lens’***

*What comes to mind as you read the words Equity, Diversity, and Inclusion (EDI)? EDI can do for society what salt does for a meal. The right amount of salt makes for a great, consumable meal. Too little or too much, the meal is unappetizing. We appear to be pouring on EDI without much consideration of the outcome we want to achieve. Do we have a shared understanding or appreciation of the purpose of EDI? Are we aligning our actions to achieve that purpose? In our session, we will strive to develop a shared understanding and appreciation of EDI and align our actions in achieving its purpose in every facet of Canadian society.*

## ***‘Practicing Authentic Inclusion’***

*Practicing authentic inclusion is ensuring we encourage ideas that are different than ours and we're interested in including them in what we're doing. It means we seek out differences in opinion and we listen to other perspectives. Trust can only happen if we are unafraid to have uncomfortable conversations. Authentic inclusion is when everybody feels free to bring their voices to the table and trusts that the organization will use the ideas that have value. You know authentic inclusion is happening at your organization when broad arrays of perspectives are considered before decisions are made.*

We are taught the history, so convoluted that it is just speaks to fractures of information that holds no meaning. We can't start to reconcile Canada's History if we aren't going to be truthful about why this all happened. Constable Elijah's experiences and candid discussions of those experiences will help all to feel what took place.*

*Since the Hamas attack on Israel on October 7th, there has been a heightened sense of fear in Toronto, particularly within the Muslim and Jewish communities. Reported hate crimes are at an all-time high. Toronto Police have responded very quickly and created a robust plan which continues to evolve. Thus far, we have had to manage hundreds of protests, and over 1000 calls for hate crimes. I plan to discuss how TPS has responded to help create an increased sense of community safety and wellbeing during this time.*
